For patients (both children and adults) to be vaccinated: the following questions will help us determine if there is any reason, we should not give you or your child and activated injectable influenza vaccine today. If you answer “yes” to any question, it does not necessarily mean you (or your child) should not be vaccinated. It just means additional questions must be asked. If a question is not clear, please ask your health care provider to explain it.

	Yes	No	Don't Know

I have had a chance to ask questions on behalf of my child. Any questions were addressed to my satisfaction. I believe I understand the benefits and risks of influenza vaccine and ask that the vaccine be given to me and to my child.
